Take up one idea, Make that one idea your life – think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success, and this is the way great spiritual giants are produced.

Learn obedience first. Among these western nations, with such a high spirit of independence, the spirit of obedience is equally strong. We are all of us self-important, which never produces any work. Great enterprise, boundless courage, tremendous energy, and above all, perfect obedience-these are the only traits that lead to individual and national regeneration. These traits are altogether lacking in us.

Learn obedience first. Among these western nations, with such a high spirit of independence, the spirit of obedience is equally strong. We are all of  
us self-important, which never produces any work. Great enterprise, boundless courage, tremendous energy, and above all, perfect obedience—these  
are the only traits that lead to individual and national regeneration. These traits are altogether lacking in us.

Learn obedience first. Among these western nations, with such a high spirit of independence, the spirit of obedience is equally strong. We are all of us self-important, which never produces any work. Great enterprise, boundless courage, tremendous energy, and above all, perfect obedience-these are the only traits that lead to individual and national regeneration. These traits are altogether lacking in us.
