Waste Management

The Waste Management initiatives at the College echoes its commitment to lessen the environmental impacts through effective waste management and sustainable practices by converting waste into reusable resource.

Objectives

1. To ensure that waste management is performed in accordance with all waste statutory requirements, including the duty of care, and to plan for future changes and to mitigate their effects.
2. To promote environmental awareness in order to increase and encourage waste minimisation, reuse and recycling.
3. To minimise waste generation at source and facilitate repair, reuse and recycling over the disposal of wastes in a cost-effective manner.
4. To invest into the expansion of recycling opportunities on the campus and transform waste into value added products.
5. To ensure the protection of the environment through effective waste management measures.
6. To promote holistic approach of waste management in the campus.

Recycling Paper Waste

Used paper from the college is collected, stored, and recycled properly. The unwritten/ unprinted pages of used papers are reused to send circulars and other documentation purpose.

Disposal of Food Waste

All hostels and canteen are provided with waste disposal mechanisms. The food waste is used for biogas production. The biogas produced is utilized for cooking at the hostel. The waste from the food outlets on campus is removed by the service providers and disposed of.

Recycling of Leaf Litter

Leaf litter from the campus is used for mulching around tree bases to help retain water content and enhance nutrients. Dry leaves and other plant wastes are dumped to form natural fertilizer for plants and further utility of enriching the quality of Vidyalaya soil.

Principal i/c
Sri Ramakrishna Mission Vidyalaya
College of Education (Autonomous)
Coimbatore-641 020.

Liquid Waste Management

Wastewater from the bathrooms is collected through drainage pipelines and drained out by the drainage system thereby avoiding stagnation of water inside the campus. The wastewater from the hostel is used in the garden to water the plants, feeding the greenery of the campus.

E-Waste Management

The e-waste generated on campus such as tube lights, CFL, LED, computer and electronic parts is annually collected and disposed.
